

Applied Physics Research Affiliation and Project Proposal Form

Date: _____

Student ID: _____

Name: _____
Last First Middle

Student's Signature: _____

Student's Rice Email: _____

Research Advisor: _____
Printed Name

Fund/Org: _____ *(Fund/Org information will be confirmed before first stipend payment.)*

Advisor Signature: _____

Advisor's Primary Department: _____

Host Department: _____ *(If different from primary affiliation)*

Applied Physics Chair Signature: _____

The proposal should be between 1/2 to 3/4 page in length. Proposals should be approved by the advisor prior to signing this form. Proposals deemed inadequate by the Applied Physics graduate committee will be rejected.

Project proposals should include:

1. At least two references to recent relevant work for those members of the APP committee interested in the research area.
2. A statement about the current knowledge in the field and what the student hopes to contribute.
3. A statement about the experimental or computational techniques that will most likely be used to make these contributions.

Please return completed, signed form with advisor-approved proposal to the SCI Administrator in 01 Hermann Brown Hall
